## Experience
### 3+ Years

**Blackboard Inc.** *Web Developer, Level 2*
November 2014 - Present

Created responsive and accessible websites for schools in the K-12 market

Build Team Processes and tools to help my team work more effectively and efficiently, such as browser extensions and a version control system via GitLab.

**ZedX Inc.** *Full Stack Developer*
October 2013 - September 2014

Worked with domestic and foreign stakeholders to develop digital systems.

Used common web languages like HTML, CSS, JavaScript, PHP, and SQL to develop webpages and applications, such as a human resources system, and inventory management solution.

## Education
